ASSIGNMENT FOLIO

We take this opportunity to express our sincere gratitude to Dezyne École College for providing us with the knowledge, resources, and guidance essential to the successful completion of this project.

Our deepest thanks to our respected Principal, Dr. Vinita Mathur, for her visionary leadership and continuous encouragement. Her commitment to academic excellence and student growth has been a constant source of motivation and pride.

We are equally thankful to all our faculty members for their consistent support, expert advice, and valuable insights that shaped our learning and helped us achieve this milestone.

Lastly, we extend heartfelt thanks to everyone who directly or indirectly contributed to the success of this project.

We are proud to be part of Dezyne École College, an institution that truly nurtures professionalism, innovation, and purpose.

With sincere appreciation,

Anurag Bhati

Department – BCA

Dezyne École College, Ajmer

ASSIGNMENT FOLIO

Objective:

Build Subscriber Base, Increase Engagement, Promote Products, Improve Conversions & Maximize ROI

1. Subscriber List Creation

Created audience list in Mailchimp. Segmented subscribers based on interests and demographics.

2. Email Campaign Setup

Selected regular email campaign and defined campaign name, audience, and subject line with strong CTA.

3. Email Designing

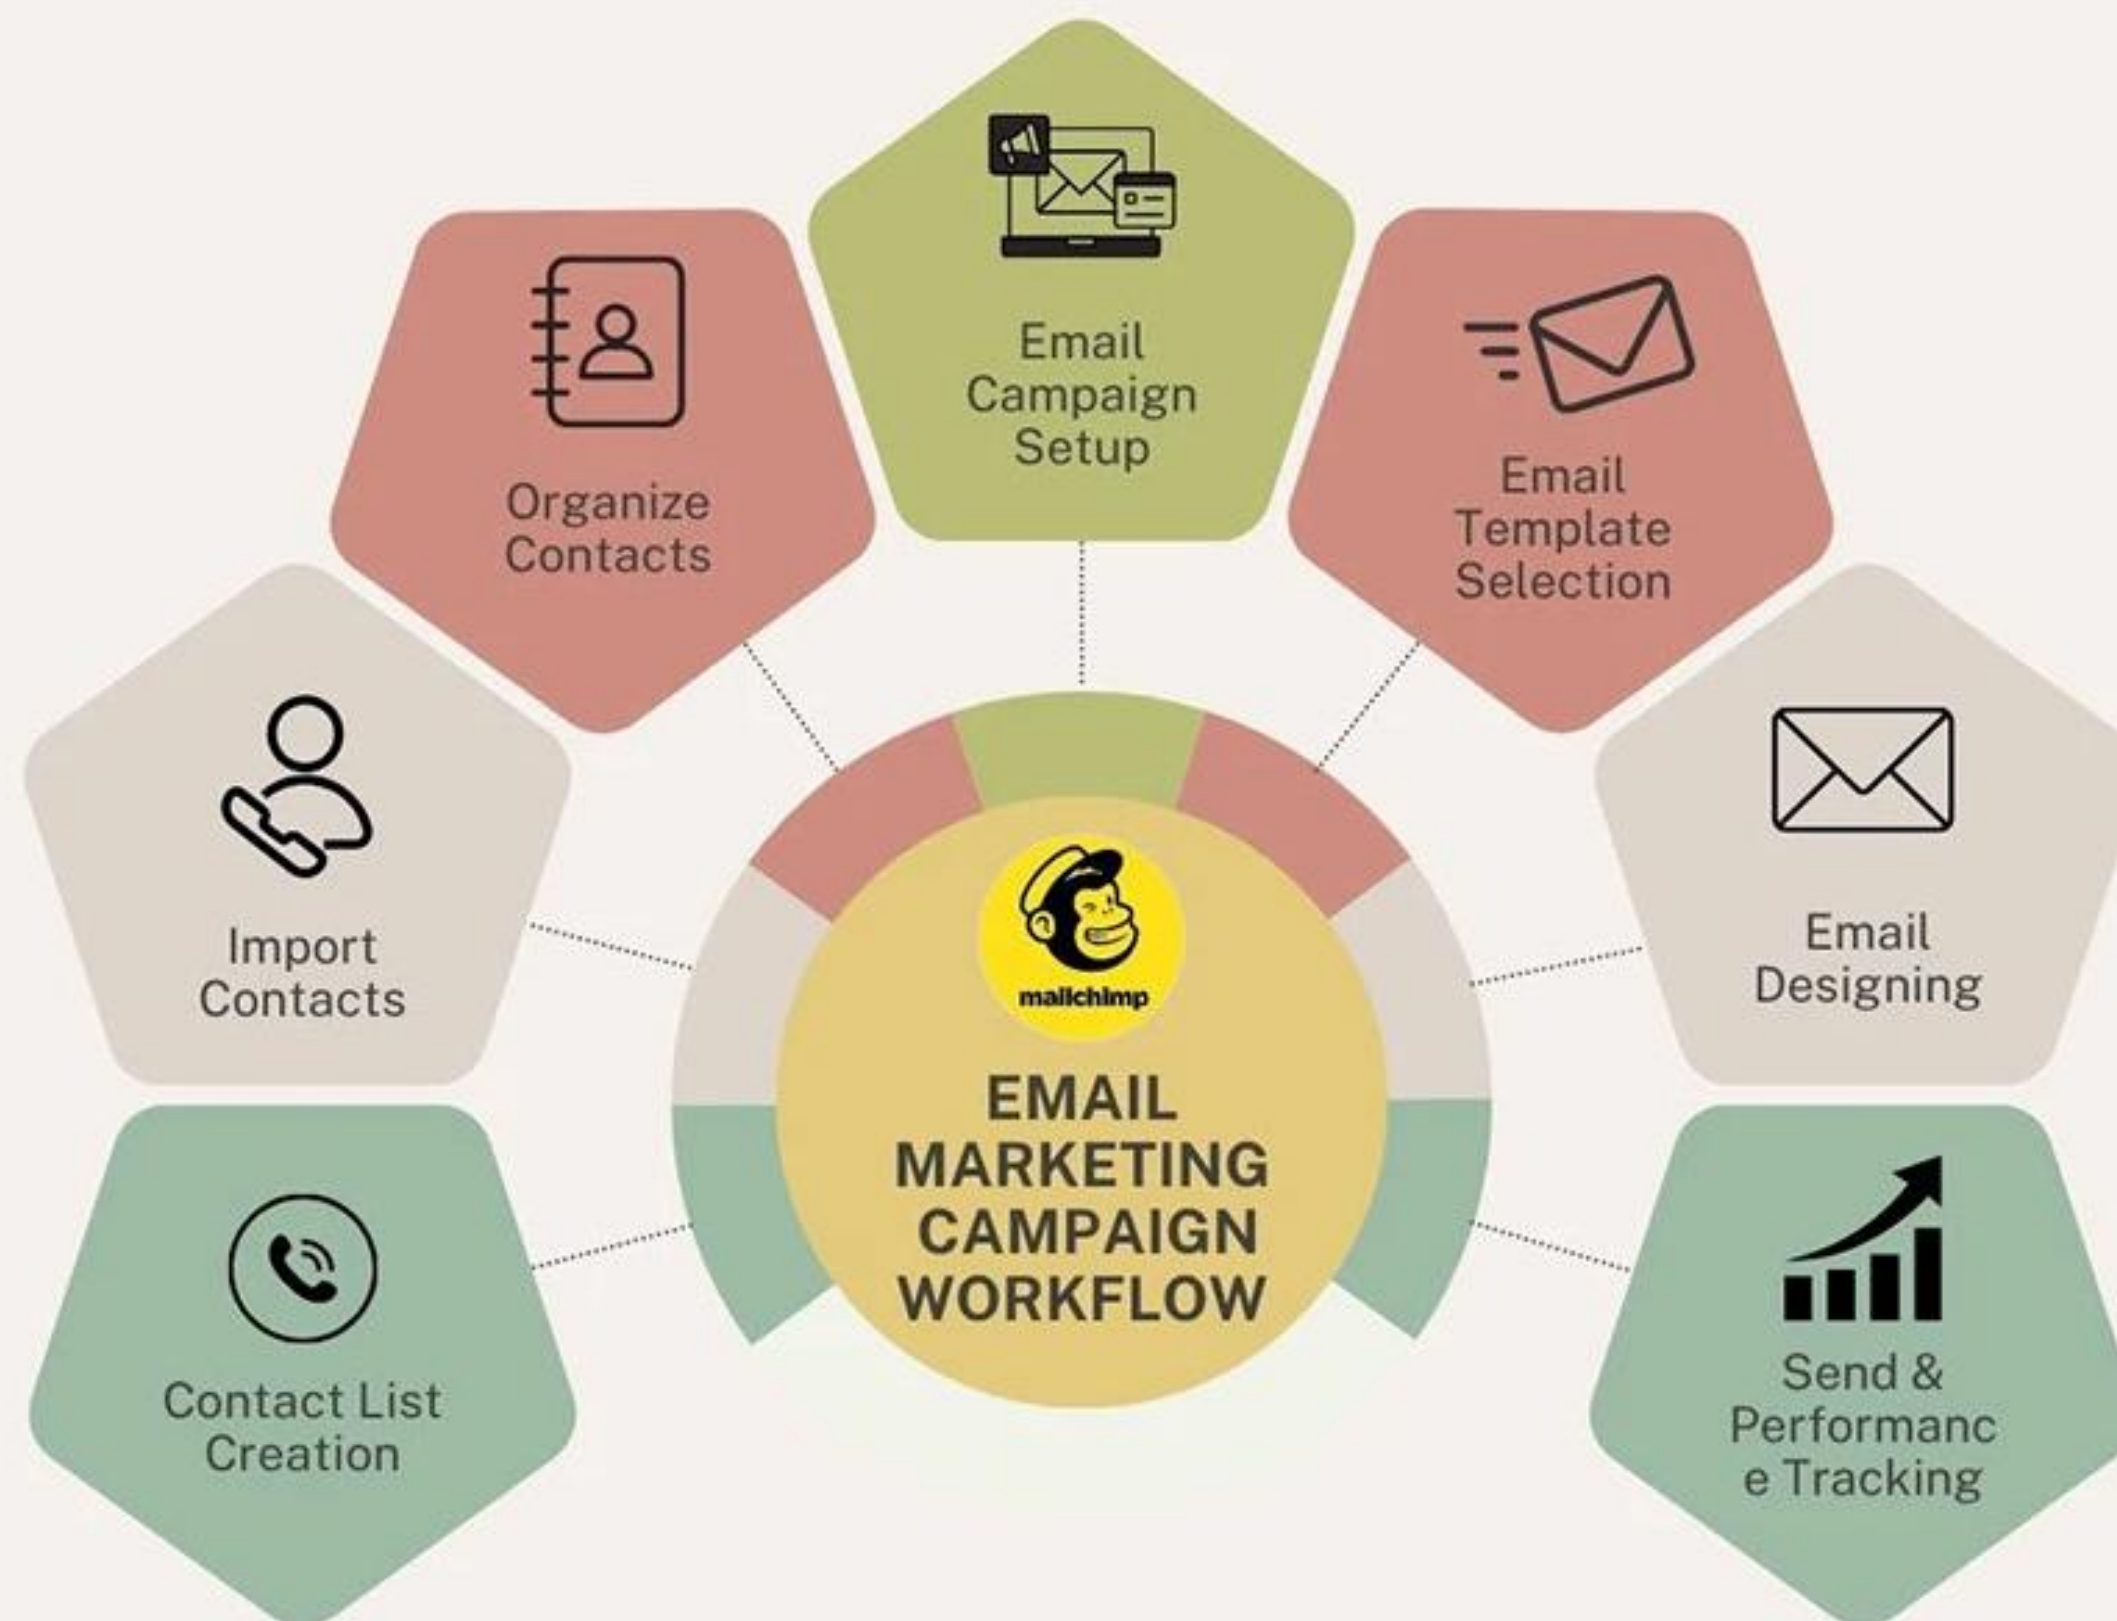

Designed responsive email using drag-and-drop builder. Added logo, banner image, product details, and clear Call-to-Action buttons.

4. Test Email & Optimization

Sent test emails to check layout, links, subject line, and mobile responsiveness.

5. Final Publication & Performance Tracking

Scheduled and sent final campaign. Monitored open rate, click-through rate (CTR), and conversions.

Make sure your data transfers correctly

Each column in your file needs to be matched to a field in Mailchimp. Select the fields you want to import and update any that are not mapped.

When a contact already exists

Do not update existing contacts

New contacts are added. Existing contacts keep their current fields, tags, and groups.

Update and unarchive existing contacts

Overwrites field values, including blanks. New tags and groups are added — nothing is removed. This can't be undone. [Learn more](#)

3/3 columns will be imported.

[Show unmatched columns only](#)
